I had an Account by Mr Mewburn of the Death of yr Lady, for wch I condole wth you but was Surprised at the Methods he has taken wth the Tenants at Seaton wch I may conclude was without your directions, the Estate I take to be mine charged wth my Nieces portion, and why your Steward should persuade any of the tenants to attorn you, I cannot apprehend, for I must not suffer him to deal large pennyworths out of my Estate, nor can I think you design it, I am not for spending money in law, you may remember the last contend was not to either of our advantage, & therefore if you are pleased to make any reasonable proposal & appoint any friend of yours, I will procure one of mine to meet any where about half way to Newby, my desire for peace, & a friendly end occasions this & I do it thus Early, that what ever may be the consequence of a breach, I may Justify my self not to be the aggresser, there is a large field of contention open, I hope none will prevail on you for their Interest, (I am sure none shall on me) to give the law any money tho I shall always defend my Self against oppression, the Sooner you are pleas'd to give me your thoughts of this Matter, it may be of more Service to us both I am

I received yors with the Tennants names that stood by Sr John's intrest as likewise those that stood by mine. tell that Knave James Blacket, that I will most certainly make him an Example, for I expected he would have stood firm to me, above all the rest of Tennants, Sr Jno <hope> knows not well what to doe, I haveing fyled a Bill in Chancery against him, & likewise served him with a Supoena, to answer it. So I doubt not but in a very short time to have an absolute end of this Bussiness. Let me know by the first, whither he desired to receive any Rents from the Tennants. I had a very civill Message from him as he went to York, & he denys he never offered to demand any Rent from the Tennants, nor to destrain any of their Goods for he knew it was against Law. I hope their will be noe occassion for an Attourney, being I expect an absolute end of this Bussiness in a very short time, Its impossible for Sr Jno to raise soe much mony as the Lordship of Seaton Delavall is worth, Soe shall be forced to keep it my self, I am yor assured Friend

I hope the Tennants will not refuse to pay you what monys they can conveniently spare in part of their Rents. I would have you come to Newby for we design for York the first day of Janry, Soe let me know by the next post what time you think you can with the most conveniency to yorself come over for would gladly have some discourse with you you may depend upon it, that Sr Jno shall never have a foot of Ground at Seaton, for at p[re]sent he owes me above fifteen thousand pounds. the Intrest amounts to 900£ a year & will increase dayly. I reced yors of the 19th – the reason I did not write you the last post, I was at Sr Walter Calverleys 3-or-4- days the last Weeke, it must Certainly be a very great mistake that there should be <572> pieces of Lead to pay for, for I believe Wm Lowes or Harry Tulip or both did pay a considerable sume of money to the Lead Carriers, & I thought they had discharged all the Carriage except -252- pieces, wch laid at the Mill the last pay, Soe Inquire of Will Lowes & Harry Tulip what moneys they pd for Carriage, & I fancy you'l finde the Carriage men in a great Mistake, my Son John is from Home Soe I cannot See yor Accot, I believe you'l finde you pd these Carriage men a Sume of money, Soe peruse yor acct & go up & make an absolute end with them, you must pay them for noe more than went from the Mill

I had a Letter last post from Mr Ridsdale he writes thus, yor Counsel doubts not in the least, but to have a decree to foreclose Sr John, or to have my Interest & principle pd in full me in a short time, wch I am sure would be very willing to take, I do not in the least doubt but the Estate will make both my principle & Interest good, [struck out: '& doe not Suffer it to be Sold for less, Soe you must be sure to give my Son Chris yor instructions']

When I can light of a good purchaser, I wonder how people can make such Lies, that Sr John is to have Seaton Estate again, wch can never be unless he <don> pay for it

I have agreed wth Mr Silvertop, & I doubt not but he will manage that Estate very well, being he lives in a manner upon the place, besure you write once a Weeke or oftener if there be occasion to

had occasion for a great sume of money to pay the work people, otherwise to my
