I perceive by yrs of the 20th as also by mr Fenwick tht the lead was was most shamefull weight, I wondr you should write me so foolishly tht I may depend on four times as much over weight, as wanted in the last if so no man can carry a pigg of lead it will be prodigiously heavy, I do not doubt but none but they will make good wt yt is according to agreemt , but I will make thm allow oer a fother wt is too little for the lead wch was weighd off last to mr fenwick wch was 600 odd peices, hereafter I will have no lead brought down before you see every dividual piece weighd, & then will be yr fault, if you do not see I have good weight, let me know as soon as you can what numbr of pieces lays at the mill both of lorains lead & what is made of the dead heaps & what they judge they may have by Xmas day as for tenants at Seaton you must allow thm so much an acre according to the Custom of the country for all sorts of corne they grew last year yt is <...> say for the one half Tyth, if you do not rightly understand it, shall order Will Lowes to <assist you> for I perceive it is a very common thing, a certain rule over the whole country, tht is to say so much for Wheat, so much for Rye, & so much for each other graine, tht is to say for their one half tyth though I am very well assured their farmes are so good they need not insist upon any thing for the tyth, however please thm according to the custom of the country, am very glad tht you are likely to make a considerable advancemt of Seaton lands, so besure do not faile to do it it is not in my power at present to let a longer lease this for one year because my Ld Chancellor cann[ot] make a decree, by reason the tenants has not as yet pd their martinmass Rents then we must have a commission from Chancery to Swear the Steward what clear monys he has Recd, if they had pd their Rents immediately I might have made an End this term, after martinmas) however besure to hasten thm wth all possible speed, if they do not pay destrain, for it is upon a case of necessaty tht I may have a decree in a very short time acqt my the price curt of lead I am

your inclosed letter from the <Tenth> surprized me very much I shall not be willing to allow yr £20 which is the sum you know I paid Sr Jo for the tyth, I believe the tents may never live to see so plentiful a year for Corn at Seaton Deval as the last year was so they either shall take the sum or take ther own course I shall allow no more, so besure that who Ever refuses to pay the rent in full distreant for the Law will allow thm no more tyth thn wt I paid Sr John which is 10th more thn he pays for it to the D of Somerset I wonder very much that the tenant of Lysdon should think much to pay £16.0 p[er] ann for that farme which was formerley old and young Sr Ralph's time lett at £200 p[er] ann to old Tho hyndmarsh and he would never suffer his Cattle to leed Coals but employ thm wholly in managing his Ground, & it's very well know when he dy'd amongst his Children a very Considerable Estate I think most of the Tenants are Senceless and dos not know when they may have good farmes and are well used I am well informed you may advance Every farme in the lordship, so it is a great shame that it should be so under lett I hope you'll take care in a little time to manage that Lordship much beter to my advantage thn formerly it has been I wonder you should be so long in receiveing Seaton rents for I do not know how soon I shall have an order to send for you to swear to wt you have received their Dividend of These Tenants that are refractory in take<ing> £20 in lue of their tyth let me know there names and they shall the first tenants that shall be turn's of the<ir> farmes

I Recd yours wth the last pay inclosed, cash up this pay as nigh as possibly you can to the 25th of March, but do not pay any thing for Slates or work done at the houses, but onely what is done at the Mines shall be paid out of H tulips ½ Years rent due at May day next, that is for the lead that Loraine has made, as also for the waste Oar lead, but pay no more for a fother than what was usually paid, both for the waste Oar & Slaggs, the waste Oar was £6:12-6, & pay Mr Loraine what you formerly paid him, for lead is so cheap I get nothing by neither of them, that is worth the trouble, you must reckon what is due from H Tulip his whole Years Rent, as also what monys I have at Newcastle, & what comes short, you must desire Wm Lows to borrow so much of Mr Bacon for 6/m upon interest, & he shall discharge it at the Six months End, out of my Rents, & in case Mr Bacon Screple it [sic – scruple], I will send him my bond for the mony, peruse and seal the inclosed & Send it by a carefull messengr I have sent a copy of this letter to Mr Dixon afraid this should miscarry, I go to York very shortly so direct my letters for me at my house in York,

The paym[en]t of the Rent, to Mr Reay so when you go to Newcastle, you may waite on him he has orders to deliver it to you,

21 Jul 1715 Edward Blackett to William Lowes

Honest Will

I perceive by yours of the 11th, the great concern my tents shew'd when they heard of my Illness wch I am very much beholden to them for, I perceive you are at great charge every year wth the Damms, I have inquired of Severall, & they all say , there is nothing like willows for the best fence against the water for Securing the ground, this I have told you for Severall years, but whether you ever made tryall I know not, as for the damages done the tents ground where the wood was Sold off, can be but a very small matter, I may judge that your self , however I design to prevaile wth Mr Ward after he has got in his harvest, so go to Willimonswyck & view the water course & what is best to be done for it is a continual charge yearly,

My Ld Chancellor has given Sir John delavall to the 17 decembr next to pay me my costs principall & Interest if not to be foreclosed, this I have his decree for so at the time there must be an absolute end, you did mighty well not to agree wth aldm Ridley for we will have 3 Commissioners or there shall be none, I am wth my humbl Service to Mr Bacon,

Let me know the name of the tents that has Recd any damage by the leading of the wood & what Rents they pay & the name of the grounds

Your acct you gave me of Mr Brumell is quite different from what I have from other hands, am informed he has made an absolute End wth aldm Ramsy, but upon what

accts or what part of the colliery he has reserved to himself I know not as for Mr Spierman he lent a sum of money & had a part of the Colliery in lieu of it, as I am informed, however besure you make further inquiry, I wondr you do not give me an acct what End Robinson has made about Mr Selbys annuity, & wondr Mr Wilkinson will continue such a knave in my Nephews business

I perceive I have 772 pieces of lead lying at Newburn, shall not bring down any till I have first sold it, so should be glad to hear there was any dem[an]d for it, inclosed I send you a copy of Sir Johns bill against me in the Excheqr my councill tells me they doubt not to get his bill dismiss'd wth costs, I have till next term given me to give in my answer, I have the decree sign'd, my Ld chancellor has given Sr John time to the 17 decembr next to pay the principall costs & charges, or to be foreclosed, & then there is an absolute end of all

[Note: Sir John Delaval 3rd Bt (1654-1729). Took over the Baronety in 1696 on the unexpected death of his elder brother. He did not inherit Seaton Delaval Hall as it was left to his brother's wife in the will. He had to live in the Lodge. After he stood down as

an MP in 1710, he suffered from mounting financial problems. The death of his sister-in-law in October 1713 led him to attempt to repossess Seaton Delaval and Hartley, but his attempts were resisted by the servants of her second husband, Sir Edward Blackett, 2nd Bt. Blackett's resistance of Delaval's claims stemmed from the failure of Delaval to pay the marriage portion of £8,000 which, by the terms of his deceased brother's marriage settlement, was due to Delaval's niece upon her marriage to Blackett's son. The dispute led to a Chancery case in which Blackett was successful and was awarded £14,624 12s. 7d. (the original £8,000 plus interest.)

Newby October 26 1715

Mr Ward

Sr. I Recd yours by Luke, am Consern'd should give you so much trouble, but at this time it cannot be helped, I could hartely have wished that you had not sent out a horse for Sockburn, for I am very positive that by act of parliament that the Estate is not liable, being under the value of five hundred pound p ann, am sure the leiutenance durst not trie it with me at law, I desire youl take care to get me bearor, or Bearors, & that they shall be obliged to Contribute to this last great charge, if you had not sent out a horse I could have compeld them with less trouble, being the Estate was not liable to set out a whole horse as for what concerns Gersby I hertely wish you health, & would give you leave, to wate of the Deputy Leiutenants at Northalerton, Enclosed I send you the two last orders I had, I do not well know the value of Bellinghams Estate at Worsall, but I believe it may be about two hundred & fifty pound p ann or thereabouts, so I would have you to give in my Estate at Gersby three hundred pound p ann for I am very sure that no less then five hundred pound a year can be charged or liable to sett out a whole hor[s]e, to my own knowledge I know several Gentlemen of 1000 pound p ann and much more sett out but one horse I am myself is a fourth part Consern'd in the Lordship of Winlington is in the bishoprick of Durham which is 16 hundred pound a year good rents, & was never more charged than for one horse, this I hope will give you full satisfaction, with my Service to you & yours I am

I gave you the trouble of a letter as also one inclosed for Mr Lowther wch I doubt did not come to hand by reason I have heard nothing from you since –

About 8 months ago I got a decree in Chancery against Sr John delaval for £15000 pound and in case that Summ was not pd me the latter End of this month or the beginning of the next, he was to be foreclosed, & the Estate of Seaton Delaval absolutely my own, so was lately advised by my Sollicitor not to faile to be in Town at that time, my Son likewise has not as yet got his Accts past by the Commissioners for the charges of his ship for 2 Y[ears] in the W Indies, so his presence is highly necessary their, for the quick dispatch of the concern but as soon as that is over we shall immediately come into the country. I hope Mrs Savill will not take it Ill when she hears of our Sudden journey, wch I design to begin on Monday next, pray desire Mrs Lowther to acqt Mrs Savill the reason of our going, wch I hope she will excuse, being it was absolutely necessary, wth all our Services to your Self and Mrs lodge I am Sr Your Oblig'd Humbl Servt

I gave you the trouble of a letter as also one inclosed to Mr Lodge wch I doubt did not come to hand by reason I have heard nothing from you Since I believe my Sudden journey to london surprises you & Mr Lodge both, as well as my Self but it is unavoidable, About 8 m[onths] ago I got a decree in Chancery against Sr John Delaval for nigh £15000 & in case that Summ was not pd me the latter End of this month or the begining of the next he was to be foreclosed & the Estate of Seaton delaval absolutely my own, so the post before I writ my last I had a letter from the agent in chancery not to faile to be in town, the latter End of this month or the begining of the next, for he was told by Sr Johns Solliciter that the monys would be ready, & paid according th the order of the Court

I believe my Son told you that he must of necessaty be at London soon after he was at your house, for he had not got his Accts passd by the Commissioners for the charge of his ship for 2 years in the W Indies, wch comes to a good great Summ of monys, so his presence there is highly necessary for the quick displ of that concern, I hope Mrs Savill will not take it ill when she hears the reasons of our sudden journey wch is absolutely necessary, & as soon as we return I do not question but to give Mrs Savill all the Satisfaction she can reasonable desire both to the jointure & settlement wth my Sons Service & mine to your Self & Mrs Lowther I am

Sr your mt obligd Humbl Serrvt

Pray make our mt humbl Services acceptable to Mrs Saville & her daughter
